DETAILED ACTION

1. This action is in response to the amendment filed on 8/19/04. The previous 35 USC 112 rejections are withdrawn, and the previous 35 USC 103(a) rejections are withdrawn.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Specification

3. A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required, it being noted the substitute specification filed 11/28/03 was not entered because it did not contain the table from the original specification. A substitute specification the same as that filed 11/28/03 including the table would be entered. However, as noted in the previous Office Action an additional objection to the specification is made wherein applicant is asked to amend the specification to include the generic terminology for the vulcanizing agents DM, D, T/T, and NA22 disclosed on page 9, line 15.

Claim Rejections - 35 USC § 112

4. Claims 18-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 18 requires forming the waterproof sheet without heating. However, the

Art Unit: 1733

specification does not disclose anything regarding the amount or lack of heating during formation of the sheet. It is noted applicant has pointed to the preamble of claim 12 for support in that an "unvulcanized" sheet is formed. If this is the only support for the limitation then claims 12 and 18 require the same, and a duplicate claim objection is set forth below.

Double Patenting

5. Claims 18-21 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 12-14 and 17. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

6. Claims 12-14 and 17 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

The claims are allowed in view of the amendment and arguments submitted by applicant 8/19/04.

The prior art of record fails to teach or suggest manufacturing an unvulcanized rubber sheet formed of the materials required in claim 12 wherein the weight of the adhesion providing agent is 41% the weight of the rubber main material.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John L. Goff** whose telephone number is **(571) 272-1216**. The examiner can normally be reached on M-F (7:15 AM - 3:45 PM).
